FREE OFFICE SOFTWARE SUITE!!!

If you need a full featured replacement for Microsoft Office, you should take a look at *OpenOffice.org*! It includes a word processor (writer), presentation software (impress), equation editor (math), drawing program (draw), spreadsheet software (calc), and database software (base).

These are just a few of the benefits of *OpenOffice.org*:

- Compatible with all major office suites – ability to read and write to Microsoft and Corel file formats

- Familiar user interface – small learning curve

- Runs on most computer operating systems – Microsoft Windows, Macintosh OSX, Linux, Solaris

- Open-source file format by default – you'll never have to worry about being able to find software to open your old files

- Integrated spell checking (as you've come to expect)

- *OpenOffice.org* is completely FREE – install at no cost on as many different computers as you wish
